

Snorkeling on "Coral Islands"

Discover the underwater paradise around Hae and Bon Islands

Board your very own traditional Long Tail Boat at Rawai Pier, just 40 minutes drive from Paresa, for a day at sea filled with turquoise waters, coral reef and marine life.

Off the southernmost tip of Phuket Island lay a group of small paradisiacal islands which are ideal for snorkeling, sunbathing and taking in the marvelous unique scenario of the Andaman Sea and Phang Nga Bay at once.

The traditional Thai wooden long tail boat is a great way to see more of Phuket's natural coastline and surrounding islets. Hae and Bon Islands have beautiful pristine beaches bathed by the clear, calm and warm waters of the Andaman Sea - snorkeling opportunities are abundant and so are the chances of unwinding away from the crowds of bustling Phuket Island.

Trip includes round trip transfers, private traditional long tail boat with experienced captain, Paresa guide, snorkeling equipment, unlimited soft drinks and beers, lunch at a local restaurant and beach towels.
