

Elephant Life Experience

HALF-DAY at Green Elephant Sanctuary Park Phuket

Tour Highlight

- Feeding the elephants.
- Information about the vision of the park and the history of the elephant.
- Elephants Mud Spa Pool.
- Washing the Elephants in the Fresh Water Pool.
- XXL Elephant shower.
- Delicious Thai Buffet.

We pick you up directly from your hotel and you enjoy a ride through remote rolling hills past idyllic beaches directly into the jungle in north-west Phuket. After arriving at the “Green Elephant Sanctuary Park” you will have the opportunity to feed the large elephants and young animals. We then continue to a short presentation in English of our vision, the park and the Asian elephant. After changing, you can rub the elephants and yourself with mud in the spa pool. It makes for the most beautiful souvenir photo taken by park photographers during the entire visit. Then you can wash the mud off the elephants and yourself in the freshwater pool before having fun with the elephants under the XXL adventure shower. After showering, you can enjoy a rich, authentic Thai buffet. And finally, you can say your goodbyes to the elephants before we bring you back to your hotel.
