

# Hanuman World – Phuket Zipline

Hanuman World is an adventure like no other on Phuket. It shows that the island's beauty goes far beyond the sun, sea and sand. The hillsides of Phuket overflow with thick forest that is great for exploration and outdoor activities.

The site of Hanuman World stand almost exactly as it did before construction began. A wide variety of trees and small animals occupy the 80,000 square meter plot, and the natural rubber trees are harvested by locals who are still allowed to live on the hillside. A small creek runs through the land during the wet months and even the trees within Hanuman World's reception area have been left untouched.
